

### **New Tee Time Procedures**

The front nine will be officially closed on January 2<sup>nd</sup>. We will still have the driving range available for some time. There will be some changes to tee times and to play itself. We will be working to make the tee times available for you when you want to play. Below are some of the immediate changes.

- **Tee Time Guidelines - Winter tee times will begin at 9:00 AM in January and February.**
- **18-hole tee times will automatically block a spot for turn times with a two-hour interval.**
- **Weekends will have two sessions of 18-hole tee times followed by 9-hole tee times. No unaccompanied guest play will be allowed in the morning.**
- **When making tee times online, if the time you want is blocked for turn times call the shop and the staff can make your tee time.**
- **Weekday mornings will have the first session in the morning with turn times automatically blocked. We will have to manually book two times in the late morning and afternoon. Please call the shop if the time you want is blocked on the tee sheet.**
- **Players turning will have the right of way. Example Group A tees off at 8:00 AM and reach the turn before all the morning session has teed off, after visiting the clubhouse if needed, Group A will be next to go off the 10<sup>th</sup> tee. Tee time will then resume in order.**
- **Pace of play is especially important and will be enforced. Pace should be no more than two hours per nine and being aware of your pace is important for everyone to have an enjoyable round. If your group falls off pace, you will be asked to close the gap or pick up and move back into position.**
